SUMMARY

Al Developer and Full-Stack Engineer with strong system administration skills. Currently crafting intelligent voice assistants and AI solutions at Tech Vaseegrah using LLMs, STT, and RAG systems. Known for solving real-world problems by bridging software and hardware through rapid learning and practical development.

EXPERIENCE

Al Developer Intern

Tech Vaseegrah

₩ Jan 2025 - Present

- Built a voice-based assistant using Whisper STT and LLMs.
- Designed a query classifier with RAG integration.
- Optimized NLP pipeline for faster responses.

Freelance PC Technician

Independent

🛗 Jan 2020 - Present

- ▼ Tiruchirappalli, Tamil Nadu
- Solved 500+ customer PC issues (hardware/software/network).
- Built custom systems for gaming, AI, and general use.
- Performed OS installs, BIOS configs, thermal optimizations, LAN setups.

PROJECTS

Tomato Quality Classification System

Independent Project

Marg 2024 - Dec 2024

▼ Tiruchirappalli

- Built CNN-based grading model (97.5
- Created React + Node.js interface for real-time predictions.

College Complaint Management System

Academic Project

- ♥ St. Joseph's College
- MERN stack web portal for IT complaint tracking and resolution.
- Integrated admin dashboard and automated status notifications.

Voice-Powered RAG Chatbot

Internship Project, Tech Vaseegrah

₩ Jan 2025 - Present

- Built voice-enabled chatbot using Whisper STT and RAG pipeline for accurate text-based interactions.
- Developed smart cart with memory-based checkout for seamless user transactions.

ACHIEVEMENTS

- Resolved 500+ PC hardware and software complaints as a technician.
- Achieved 97% + accuracy in image-based grading ML models.
- Designed voice-controlled RAG agent with real-time cart handling.

SOFT SKILLS

Problem Solving

Adaptability

Self-Learning

Time Management

TECH STACK
